Glass Tile
Porcelain Tile
Stone + Brick
Accessories
Master Tile supplies the finest in swimming pool tile, coping, plaster and decking products. Since our origin in 1998, Master Tile has been a leader in the introduction of new and innovative products for the swimming pool industry. We import waterline tile from premium manufacturers throughout the world. Our coping lines include kiln-fired clay brick as well as imported natural stones.

Our state-of-the-art showrooms offer our customers an opportunity to manipulate and view their tile and coping selections in a way that will allow them to visualize them on a pool. Master Tile also supplies samples to further assist in the selection process. At Master Tile you can customize the look and feel of your pool with our wide selection of quality tile and coping. We offer a full range of finishes that provide the ideal look for your pool.

From modern glass and durable porcelain to natural stone coping, decking and facades, Master Tile imports the latest trends and only the highest quality materials from around the world.

Final selection should be made from the actual Glass Tile to be installed. It is recommended that the Consumer inspect their tile before it is installed.

**Please Note:** On all glass tiles, pages 5 through 16, there will be variations in color, shade, texture and size.

Master Tile recommends for Glass Tile installation that a polymer fortified mortar that meets or exceeds ANSI A 118.15E is used along with a grout that meets or exceeds ANSI A 118.7.

Glass Tile installation should also meet ANSI A 108.16 and ANSI A 108.10 standards. Strict adherence to these guidelines will help insure years of enjoyment from your investment in Master Tile Glass Tile.

About our Stone Products

Natural Stone coping and decking are available in a variety of beautiful colors and various sizes of coping and pavers. They are ideal for interior as well as exterior uses. As with any natural stone, slight imperfections in color, size, and shape are to be expected. We strongly recommend inspection before installation. Use constitutes acceptance.

Freeze-Thaw Warning:
Not recommended for climates where severe freeze-thaw cycles are experienced.

All Natural Stones must be sealed. Sealing helps to resist freeze-thaw spalling and salt water attack. Water penetration may damage travertine in freeze-thaw conditions. Buyer must determine that the product’s slip resistance and freeze-thaw stability is acceptable for their particular outdoor application and climate.

Master Tile supplies 1¼” and 2” thick travertine. Our 1¼” travertine coping offers the elegant look of natural stone at price level comparable to flagstone and brick coping.

**Shade variations are an inherent characteristic of all stone tiles. Please inspect actual shade of tile before installation. Use constitutes acceptance.**
Add beauty to concrete decking with this slip resistant, comfortable deck surface. This is the perfect choice for pool and spa decks, walkways, entrances, and driveways.

**HIDE**

Marine grade, 316 stainless steel components.
Accessed with Safety Key only.

**Diamond Brite**

Exposed Aggregate Pool Finishes

An exposed aggregate pool finish blended from natural quartz aggregate, polymer modified cement, and non-fading color quartz in a stunning variety of colors. This unique interior pool finish is durable, easy to maintain and comfortable to swimmers’ feet.

**SGM**

One-Step Spray Deck
Add beauty to concrete decking with this slip resistant, comfortable deck surface. This is the perfect choice for pool and spa decks, walkways, entrances, and driveways.

**Depth Markers**

Master Tile stocks a complete line of depth marker tile in both a glazed finish for the water line as well as a non-skid finish for pool decks.

See actual samples of Diamond Brite and SGM, before installation.

RS600: STAIN SAFE – MAXIMUM PROTECTION AGAINST STAINS
Maximum performance, solvent based, impregnating sealer formulated for stain resistance.
RS600 gives excellent protection from water, oil and alcohol (wine) based stains.

CS100: CLEARSTEEL – PREVENTS DISCOLORING BLACK ALGAE
Organo-silicon polymer for protecting surfaces from discoloration, odors and possible health issues caused by mold, mildew, fungus and algae. Salt resistant.

SG100: SLIP RESISTANT GRIPPING ADDITIVE
SG100 is a micronized polypropylene additive providing abrasion and non-slip resistance for both solvent and water based acrylic sealants. Blend in container.

WL250: PAVERS ONLY – ACRYLIC WETLOOK HIGH SOLIDS
Wet look, high-solids acrylic sealer formulated for higher traffic areas such as walkways, driveways, garage floors, etc. Ideal for pavers, natural stone, concrete & masonry.

WL350: WETLOOK – LOW SHEEN
WetLook is a unique, breathable silicone/acrylic polymer sealer that gives a rich low sheen wet-look. WL350 provides strong stain protection from oils, chlorine and salt instructions.
Be Creative. Be Different. Make it Yours.
